Recruiting Coordinator  
RealPage, Inc.  
Hyderabad, Telangana, India

Dear Recruiting Coordinator :

I am writing to express my interest in securing the Software Engineer I position at RealPage. I have completed my Bachelor of Technology degree at Maulana Abdul Kalam Azad University of Technology, Calcutta, specializing in Computer Science Engineering. I come from a solid technical background with a strong interest in full stack development and python scripting. My area of focus and interest varies from back-end infrastructure implementation to project management. I have maintained a 9.11 CGPA through a well-balanced program of study, which is not only very analytical and technical by nature but also helps to build leadership and team building qualities.

I did my autumn internship at a Bangalore based e-commerce retail startup called Baaz, where I was a Full Stack Developer Intern. At Baaz I have gained experience in understanding the workings of backend architecture and its integration with the frontend, database, and APIs. This role also involved working with AWS microservices, MongoDB databases and Python Scripting, within a workplace that follows Agile methodology.

Prior to Baaz, I have worked on multiple projects in the domain of Web Development, Artificial Intelligence and Python Scripting. I have 7+ years of experience working with python using various libraries like TensorFlow, SciKit-Learn, Numpy, Keras, Pandas, Pygame, and more. I have done multiple projects supporting my skills in the AI/ML field, including a RNN based stock market predicting algorithm. I gained solid research, analytical and problem solving skills while working with these projects for various hackathons, college and for myself. I do believe my academic background, technical and analytical knowledge with industry experience have provided me with the credentials needed to thrive as a developer at RealPage.

I would appreciate the opportunity to interview with RealPage for the Software Engineer position. Please find enclosed my resume for your review. I can be reached via email at mishraprashant304@gmail.com or by phone at (+91) 916-354-0362. I enthusiastically look forward to hearing from you soon. Thank you for your time and consideration.

Sincerely,

Prashant Kumar Mishra
